Dear Jim:

I have talked to Dick Kerr [redacted] and Dick STAT is prepared to consider hiring him as a kind of scholar-in-residence with an annual renewable contract. If this works out [redacted] would be STAT given a defined work program centered around several specific research papers.

Today I received a letter myself from [redacted] refering to STAT information received from you about my involvement in his situation. He also attached a very impressive resume.

I will get in touch [redacted] and will do what I can with STAT Dick Kerr to arrange a scholar-in-residence program. His credentials are very impressive.

Regards,

Dave
